## How Do We Hear a Sound?

1. Label the parts of the ear.

Word Bank:

auditory canal

anvil

semicircular canal

auditory nerve

stirrup

eardrum

cochlea

auricle

oval window

hammer

wax gland

Eustachian tube

2. Make a flow chart using boxes to show the transfer of energy from one part of the ear to another. Use the words and diagram above to help you.

3. How can you protect your hearing by changing what you do everyday? \_\_\_\_\_
